2012 Book of Lists a helpful resource in tough business times

Staying on top of news and other developments in business can be overwhelming. Who's moving in, who's moving out? What's the competition up to? Where to find prospects?

The *Northern Colorado Business Report* Book of Lists can help.

Packed in these pages are 102 rankings containing thousands of facts, figures, names, addresses and online contact information for hundreds of businesses.

This book brings together in one place the ranked lists that have appeared in each and every issue of *NCBR* throughout 2011. Whether you are looking for the largest hospitals or the top brewers, you'll find them here.

If you're a job seeker, you can identify the top executives at each firm, along with contact information. If you are a local business owner or company executive, you'll be able to see how your competition is faring. And if you are simply interested in a snapshot of business in Larimer and Weld counties, the data you need is in these pages.

With a few exceptions, each list is presented as it was originally published in *NCBR* and tagged with the date it appeared, indicating that the information on the list was accurate as of that date. Any changes or updates to the information since the original date of publication are reflected in the online version of the lists available through our DataBank at www.ncbr.com.

We've also produced an alphabetical index of every company in the publication. Flip to the back of this book to find the exact page number where a particular company appears.

Before you dive in, please turn to Pages 2-3 to see how these lists will look beginning in 2012. We've made some significant changes aimed at presenting this information in a more dynamic and, we hope, appealing way. We'll be adding short stories about the big changes in the rankings, information graphics that help provide a snapshot of the trends shaping and reshaping various industries and a sprinkling of short blurbs highlighting highs and lows at the companies listed.

Our researcher on these rankings, Mariah Gant, would welcome any feedback you may have on the lists. Contact her at 970-221-5400, ext. 213, or via e-mail at mgant@ncbr.com, to suggest a new company, to find out how to submit an update or to recommend a new list for us to research in the coming year.

For those of you who rely upon direct marketing to prospect for business, please note that the Book of Lists is also available on CD-ROM for only \$119, a cost-effective way to begin building your own database. In addition, all of our lists and directories can also be accessed and downloaded online at www.ncbr.com by subscription only.

Finally, a sincere thank you to all the advertisers who are part of this year's Book of Lists. A special thanks goes to our sponsors Bank of Choice and Banner Health.

Doing business in these times hasn't been easy for anyone. Here's to a great 2012! We're looking forward to helping you grow and boost profitability in the year ahead.

Wishing you much success,

Jeff Nuttall

Two banks headquartered in Northern Colorado, Signature Bank and Bank of Choice, were acquired in July 2011 after struggling to maintain new regulatory minimums in their capital levels.

The sale of Signature Bank to Points West Community Bank, based in Julesburg, Colo. on July 8 increased Points West's footprint in Northern Colorado with the acquisition of three branches.

On July 22, Bank of Choice was sold to Kansas City, Mo.-based Bank Midwest, bringing a national competitor into the market. All 17 branches of Bank of Choice, formerly headquartered in Greeley, were acquired by Bank Midwest, though they have retained the Bank of Choice name.

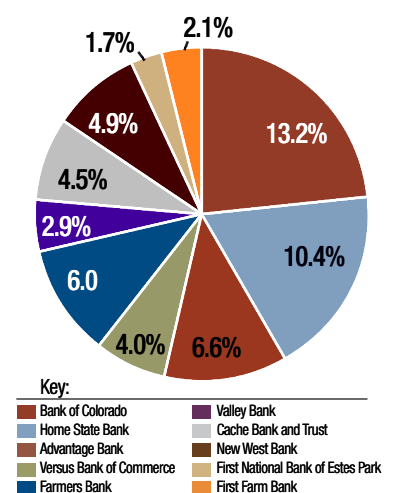

Lending activity also showed signs of life. Banks in Larimer and Weld Counties made a total of \$59 million in SBA loans in fiscal 2011, compared to \$43.5 million in the previous year.

HERE DURING BUSINESS HOURS. AND THEN SOME.

Jennifer always wanted to open her own business. And she knew she'd rely on Bank of Colorado when she did. It wasn't that we had the right loan, which we did. No, she wanted to work with us, because all her life she'd seen us around town, sponsoring the 10k and being good neighbors. Over the past 70 years, we've learned it's good to be open during business hours, and better to be open around the clock.

Since 1986, Aller-Lingle-Massey Architects, P.C. has exceeded our client's expectations in designing creative, visually engaging architecture for both private and public clients.

Our design for the pavilion at Ruby Hill Park is our most recent example. The City and County of Denver Parks and Recreation Department charged us with creating a "signature" pavilion as the centerpiece of the redeveloped park. The result is both functional and beautiful, capturing the spirit of the park theme developed by Russell+Mills Studios as well as the stunning 360° views of Denver.

The Face of Sutherlands

Our Experienced Team Makes The Difference.

● **Chris O'Brien** — Contractor Sales
Chris has over 25 years of experience in construction, including architectural study and framing contractor experience. He works closely with architects, engineers, general contractors and clients alike. "We can provide services for all phases of a job. This includes value engineering, design help, budget development and thorough take-offs. Our in-house estimators, designers and pack builders all contribute to meeting customers' demanding schedules and need for quick turnaround."

● **Jeremy Jiricek** — Contractor Sales
Jeremy has over 17 years of construction sales experience with focus on residential buildings. "I hold myself accountable to my customers. I take pride in that. I stay involved in each project, and monitor everything from the initial bid to the materials drop at the jobsite. By staying involved, I'm able to catch anything that might have been overlooked before it becomes a problem. Getting it right the first time and making sure there are no delays are two of the most important aspects of what I do."

● **Ron Stoehr** — Contractor Sales
With over 18 years of experience in the construction industry, including general contracting, Ron knows what you are up against. He prides himself on consistent pricing, excellent service and timely deliveries. "At Sutherlands, we can help you with all stages of your project: from steel and trusses to doors, windows and interiors. We are a one-stop shop. Our team's goal is to efficiently manage your project, making sure nothing is forgotten."

When it comes to lowering emissions, we're not just talking the talk or walking the walk. We're driving the drive.

encana™
natural gas

We are converting our vehicles throughout the state so that they can run on natural gas. We're doing this, quite frankly, because it's good for the environment and promotes jobs in Colorado. We use natural gas fuel produced right here in Northern Colorado and are able to fuel more conveniently as more Compressed Natural Gas (CNG) fueling stations are being built throughout the region. Plus, using natural gas instead of conventional gasoline saves us money in fuel costs. To learn more about fueling with natural gas email NGV.info@encana.com or call 866.251.0032.

When it comes to bringing you reliable power, we go the extra mile

In every corner of our 2,000 square mile service territory, from suburban neighborhoods to distant ranches and even to thriving businesses like Vestas, Poudre Valley REA delivers the electricity that powers Northern Colorado.

So, whether you're building your dream home or a new manufacturing plant there is one thing you can count on. We'll be there when you need us.

Business Depends on Affordable Electricity

Every day, every business across the West relies on the power of electricity. But for some businesses, higher electricity bills could delay important investments in new employees and equipment that increase productivity. At Tri-State, we're working hard to address the challenges that threaten affordable electricity, including unreasonable regulations and policies. As a not-for-profit co-op, we're committed to protecting consumers today and in the future by providing affordable power while investing in innovation. In keeping electricity affordable, we believe businesses have the power to make the economy that much stronger.
