### How to Set-up a Successful **Loyalty Program**

Are you looking for a way to grow your business, build your base, and generate repeat sales? Follow these simple steps to set-up a successful loyalty program.

1. Decide on a loyalty program. Decide from punch card programs, cash-back programs, or points programs. Determine what would work for your business based on ticket size, volume, and number of customers.

#### 2. Manage your program.

The easiest way to manage a loyalty program is to set it up through an automated system. The right point of sale system should have the ability to integrate a loyalty program. Make sure to train your staff on the new addition as well

#### 3. Market your program.

Post signage in your store, promote on social media, utilize email marketing, and have your staff mention it to every customer

### **Donald Trump's Tax Plan**

President-Elect Donald Trump will be inaugurated on January 20, 2017. One of his expected first acts as President will be to move forward with tax reforms to simplify the U.S. Internal Revenue Code and lower tax rates for individuals and businesses. Proposed business tax reforms include cutting the corporate income tax rate from 35 percent to 15 percent and taxing pass-through businesses, i.e., S-corporations and partnerships, at a 15 percent rate. Proposed individual tax reforms closely follow reducing the top marginal income tax rate from 39.6 percent to 25 percent and creating a zero percent tax bracket. His proposed tax reform also eliminates the often misunderstood Alternative Minimum Tax. It is not certain all of his proposed reforms will become law, but significant reforms could benefit most U.S. taxpayers. ACM is available to help you monitor the changing tax environment and take advantage of the opportunities.

### **INSURANCE**

### The Importance of a Personal Umbrella Policy

Distractions while driving can occur everyday and seem to be everywhere; this can include text messages phone calls, a quick meal on the road, all of which interrupts a driver's attention. Have you thought, "What would happen if a distracted driver caused a serious accident? Would their insurance be enough to cover all damages and injuries?" The answer is more than likely "no."

Obtaining additional coverage for accidents caused by uninsured or underinsured motorist has become crucial. Excess Uninsured/Underinsured (UM) Motorist coverage is available as part of a Personal Umbrella Policy. Umbrella Liability provides protection from civil suits as a result of your actions. The Excess UM coverage provides coverage for you and members of your household, if the other party is at fault and does not have enough liability coverage to pay for injuries and damages. UM coverage also provides coverage for you as a pedestrian or bicyclist.

### **Limited Liability Companies** and Limited Liability

Recently, clients have been asking me if a limited liability company really protects them from personal liability for company actions or debts. Why bother with the expense and the hassle if it doesn't matter? Limited Liability companies have been the entity of choice for many businesses over the last few years because of the flexibility for distributions and agreements between

parties, the tax advantages of a partnership, but with state law affording the personal liability protection of a corporation. However, the flexibility isn't limitless and a case in Colorado from 2012, Martin v. Freeman, illustrates that Courts will sometimes impose personal liability on the members of an LLC. If you own a business or assets in a limited liability company, make sure you discuss with your advisors, your attorney and an accountant, the steps you need to be taking and factors you should consider in managing your business to avoid personal liability.

# AN AMAZING REGION, AN AMAZING TOOL

Very year, we are amazed. Compiling our annual Book of Lists, with dozens of lists featuring thousands of companies, reminds us of how lucky we are to do business in the Boulder Valley and Northern Colorado.

Some companies might drop off the list one year— either through merger, acquisition, leaner times or closure. But many other new companies emerge, sometimes from unexpected innovations that propel them to rapid growth — perhaps even an appearance on our Mercury 100 list featuring the region's fastest-growing private companies.

Published by BizWest Media LLC as a special edition of our monthly business journal, the Book of Lists includes many lists with combined rankings for Boulder, Broomfield, Larimer and Weld counties. In some cases, however, we've opted to publish separate lists for the Boulder Valley and Northern Colorado.

The Book of Lists compiles all of the lists that have been published in our paper in 2016, along with some that were newly researched for this edition. Listings include addresses, phone numbers, key contacts, descriptions of produvts and services, revenues and employment.

Readers can also view the Book of Lists online, using our digital edition, or purchase the data in Microsodt Excel format.

As you read through the Book of Lists, take note of the variety of companies and industries that are represented. You, too, will be amazed.

**On the cover:** BizWest continues its tradition of featuring public art in the Boulder Valley and Northern Colorado on the cover of the Book of Lists. Artist David Farquharson's "Illuminate," located behind the Mamie Doud Eisenhower Public Library at 3 Community Park Road in Broomfield, uses simple sensors pick up electromagnetic fluctuations in the area that are emitted by almost everything: people, cars, cellphones, etc. The signals are then translated into color values that illuminate the piece. Small snippets of the chaos are constantly being observed, and the millions of combined variables are displayed visually. It creates a constantly changing playful interaction with the people and energy on the street, and makes them an integral part of the artwork.

# You don't profit from sick employees. Why does your health provider?

In an industry built on fee-for-service care, Kaiser Permanente succeeds because we're built around prevention and the highest quality care. One *Harvard Business Review* article described our care as "untainted by any economic conflict of interest."\* And an industry report by *The Economist* said we promote economy and quality care with "no financial motive to order unnecessary procedures."<sup>†</sup>

### Choose better. Choose Kaiser Permanente.

- \* Lew McCreary, "Kaiser Permanente's Innovation on the Front Lines," Harvard Business Review, September 2010.
- <sup>+</sup> "Another American Way," *The Economist*, May 1, 2010.
