We've learned some valuable things from business owners over the years. First, they like working with smart people who understand banking. Second, they like working with people who *also* want their business to succeed. Sounds simple, right? But the truth is, there are very few banks who can give you both. Capability and Consideration. That's what you'll come to expect from Proactive Relationship Banking at Vectra Bank.

Power of Book of Lists can aid business growth

Talk about timing.

Just as the 2014 edition of the Book of Lists is heading to the printer, some encouraging bits of positive economic news have emerged:

The Federal Reserve has announced the long-expected tapering of its extraordinary economic-stimulus measures, indicating a strengthening of the U.S. economy. Unemployment has fallen to 7 percent nationwide, with expectations of dropping to 6.3 percent in 2014. And University of Colorado economist Rich Wobekind has provided a positive outlook for the state, including the Boulder Valley. And the housing market has come back in a big way, with inventories down and home building up.

Many business owners, who have seen improvements in their own companies during 2013, will build on these positive signs into the new year.

Expansion is in the air, and the Book of Lists can help. This publication, which compiles all of the lists that the Boulder County Business Report compiled in 2013, provides intelligence on customers, prospects and, yes, competitors.

Included are thousands of companies, ranging from the No. 1 provider of U.S. Small Business Administration loans to the largest law firms. Need an

accountant? Check out the list of the Boulder Valley's largest CPA firms.

Listings include addresses, phone numbers, key contacts, descriptions of products and services, revenue and employment.

And the print edition is just the beginning. Readers can also find the Book of Lists online, in our PageTurnPro edition, where every page is reproduced digitally. The entire Book of Lists is also available for download in Microsoft Excel format, via our website, www.bcbr.com.

You can also visit Apple's app store to download our one-of-a-kind Book of Lists app, through which you can access all the companies in the list via your iPhone.

Thank you to our advertisers, and to our chief researcher, Mariah Tauer, and our research assistant, Kiley Gant, for their hard work on this project. With any endeavor of this magnitude, errors and omissions are possible. If you'd like to submit a company or correction, or provide other feedback, please contact Mariah at mtauer@bcbr.com.

Thanks also to Boulder photographer Angelika Boyko, who provided the spectacular image gracing our front cover.

As you read through this edition of the Book of Lists, consider how you can use it to help grow your company in the year ahead.
