Wind, solar continue to counter effects of economic downturn

A letter from Publisher Jeff Nuttall

Welcome to the 13th installment of the Northern Colorado Technology & Manufacturers Directory. As you can see, we have adjusted the format this year so that more business owners and managers, over 20,000 readers in all, can gain access to the more than 950 companies listed within its pages.

The types of companies in this edition reflect the changing nature of manufacturing in Northern Colorado. AVA Solar Inc. has increased its workforce from 30 to 150 — with up to 500 jobs projected — to produce its solar glass panels. Vestas Wind Systems A/S, a Danish company, has hired 650 people for its wind-turbine blade manufacturing plant in Windsor, plus the company plans to add another 700 jobs for its two new manufacturing facilities in Brighton: another blade factory and one that will produce nacelles, the pods that contain the power-producing equipment.

Continuing this renewable energy theme, Solix Biofuels, a Colorado State University spinoff, now has 35 employees and recently raised the funds to build its algae biofuel facility. Last but certainly not least, Hexcel Corp., based in Connecticut, will be adding about 100 jobs for a new facility in Windsor designed to create a product called prepreg that makes the Vestas blades stronger.

This directory is the perfect reference tool if you are tracking technology and/or manufacturing companies. It includes name, address, phone, fax, e-mail, Web site, revenues, number of employees, year founded, products and services, and more, for every company listed.

I'd like to thank our chief researcher, Joshua Johnson, for the many hours he spent on this project, both in updating existing records and in ferreting out new companies that should be included or old ones to be removed. In a project of this magnitude — with cutting-edge companies constantly changing by their very nature — errors and omissions inevitably occur. If something has changed with your company's data, visit www.ncbr.com and click on the Submit News or Data link to update your information. You can also contact Josh Johnson to let us know of any changes at jjohnson@ncbr.com or 970-221-5400, ext. 227, or use the form on page 47, so they can be included in our next directory and the ranked lists published throughout the year in NCBR.

We're pleased to offer the contents of this directory on CD-ROM, in Microsoft Excel or tab-delimited formats for \$195. Or go online to www.ncbr.com to download this and other databases via our online DataBank. And watch for our other directories during the course of the year, including the Northern Colorado Book of Lists, the Blueprints construction directory, the Northern Colorado MD medical directory and Portfolio, our banking and financial-services directory.

In the meantime, enjoy this edition of the Northern Colorado Technology/Manufacturers Directory!

Partner with the Northern Colorado Business Report on event sponsorships. We do the work of creating quality events you'll be proud to have carry your name, and your company will reap the quantifiable rewards.

- A minimum 115,000 brand impressions through multi-media advertising - results in greater top of mind awareness.
- Quality face-to-face time - results in an open door for extending the relationship.
- Receiving a qualified event contact list - results in a direct line to a follow up call and meeting.
- Partnering with the most highly regarded business news source in Northern Colorado - results in your business being known as a credible company that is worth knowing more about.

Put your company in the winners' circle.

With sponsor levels that fit into a range of budgets there is an events package for every company to use to its advantage in building relationships and creating business growth. To learn about how NCBR 2009 Events fit into your marketing plan call De Dahlgren, NCBR marketing director, at 970-221-5400, ext. 202, or send an email to ddahlgren@ncbr.com.
